

Our approach to program development:

- Focuses on addressing priority Defence needs, as articulated by the customer
- Requires an in-country industrial capability exists or can be developed, and
- Allows industry & research partners to deploy and fully devote resources to projects

Our approach to program management:

- Ensures Commonwealth funds are leveraged with additional contributions from industry and research partners
- Includes robust Intellectual Property controls
- Monitors project progress and enshrines the primacy of the Defence customer in setting and adjusting priorities, timeframes & milestones
