

Policy – Quality

DMTC leads, facilitates and manages cooperative research and development in the defence and related sectors with a core focus on facilitation and management of collaborative research and development and technology stewardship to create and enhance Australian industrial capability in the defence, national security and health security sectors.

Purpose

DMTC's quality policy is to:

1. Pursue Our Vision

To develop technology solutions and provide advice enabling industry to enhance Australian Defence and national security capability.

2. Execute Our Mission

To create and enhance Australian industrial capability and skills through designing and executing collaborative technology development and innovation activities in the defence, national security and related sectors.

This includes a commitment to satisfy applicable requirements. We are committed to a quality management system that meets the requirements of ISO 9001 and ISO 44001 including continuous improvement.

Policy Scope/Coverage

Our quality management system covers DMTC staff and secondments conducting DMTC activities, it does not cover our partners and participants nor their employees and other third parties.

ISO 9001 Design and development of products and services clause 8.3 is not applicable in our system because we do not design and develop products and services.

Our Values

Inclusive Committed Inspiring Trusted Integrity
